£68 (1 hr)

The ultimate treatment, different every time. Customised with advanced product, techniques and technology in a soothing environment made for relaxation. The ideal choice for those who want a comprehensive experience to address all skin concerns and achieve healthy glowing skin.

## **Dermalogica ProSkin 30** OUR THERAPISTS' FAVOURITE

£42 (30 mins)

Our customised treatment, on your time! Targeting your key skin concern for maximum impact in minimum time, this treatment is a firm favourite with those who have just 30 minutes, want visible results and great value.

## **The Frozen Facial**

£89 (60 mins)

The most effective and advanced skin rejuvenation treatment yet, tackling lines, wrinkles, and pigmentation. Enjoy a full cleanse followed by microdermabrasion to resurface and smooth the skin. Followed with micro-channelling and topical dissolvable oxygen to stimulate the skins natural heal repair response. This is the most advanced method of replacing lost moisture in the skin. Fabulous for dull, dehydrated, ageing, pigmented, scarred skin. We adapt the chosen infusion and mask depending on your concerns. We will tailor make the treatment at all points to give you the best results possible.

## **H2O Glow**

£72 (60 mins)

Crystal Clear's most intense hydration treatment yet, giving red carpet ready results. The H2O Glow facial delivers freezing cold oxygen throughout the epidermis to nourish and invigorate skin cells, while the COMCIT TDO roller allows Hyaluronic Acid to reach deeper dermal layers via micro-channels; plumping and re-balancing the skin from the inside out. The result is brighter, fresher, hydrated skin that glows with a youthful radiance. This is a one-off treatment to create a beautiful glow.

## **Oxygen Therapy**

£59 (45 mins)

Delivering topical dissolvable oxygen to the skin to re-energise and stimulate the skin. This works with the mitochondria within the centre of our cells, to allow deeper stimulation. We are feeding the skin layer by layer to give you a smoother, hydrated, brighter complexion. Also fabulous for breakouts to kill the bacteria at the source.

### **Microdermabrasion**

*£52 (45 mins)*

This is a deep and controlled exfoliation method. We work across the skin, using natural mineral stones to remove the dead skin cells and smooth the skin. We are working within the epidermal layer. This allows better product absorption and stimulates the cell turnover. This treatment is good for all skin types. Leaving the skin visibly bright and clear after the first treatment.

### **Dermaplaning**

*£45 (45 mins)*

Dermaplaning is an effective skin exfoliation procedure. It uses a sterile surgical scalpel to shave the surface of the skin to remove excess dead skin and 'peach fuzz' hair.

**LED Treatment** *£20 (20 mins)*

## **CACI FACE LIFT**

---

### **CACI Signature Non-Surgical Facial Toning**

*£62 (1 hr)*

This treatment is a non-invasive facial, using microcurrent impulses. This will lift and tone your facial muscles and the neck area, whilst improving skin elasticity and reduces the appearance of fine lines and wrinkles. Firms your face and gives your skin a more youthful, fresh appearance and glow.

### **CACI Ultra Non-Surgical Facial Toning**

*£82 (1 hr 30 mins)*

This facial combines the CACI Signature Non-Surgical Facial Toning with The CACI Ultra Radiance treatment. This treatment uses microcurrent impulses, which will lift and tone your facial muscles and neck area, whilst improving skin elasticity and reducing the appearance of fine lines and wrinkles. Ultrasonic peeling is used to revitalise and deeply cleanse your skin, leaving a brighter, smoother complexion. CACI's unique Wrinkle Comb will then target fine lines and wrinkles alongside LED light therapy to help heal the skin and trigger tissue repair. To complete this facial ultrasound is used to penetrate a rich moisturising gel into your skin, which will deliver a surge of intense hydration to rejuvenate your skin.

### **CACI Eye Revive**

*£40 (30 mins)*

Lift and firm muscles around your eye area, particularly where you may tend to lose definition as you age and develop 'hooded eye lids'. This treatment uses serum filled microcurrent rollers together with the soothing and calming Eye Revive Mask to reduce puffiness and dark circles, and soften the appearance of fine lines and wrinkles around your eyes.

### **CACI Jowl Lift**

*£30 (20 mins)*

Target muscle laxity around the jawline using CACI microcurrent. This treatment will lift and firm your muscles and redefine facial contours to give a firmer, more toned appearance. Ideal for women wanting to improve the appearance of sagging jowls and for men who desire a more chiselled jawline.

*Treatment programs are available on all of our CACI treatments to maximise the results you will receive.*
